Explanation of Session Codes

M2B.4 ——————————→ **Number**

Presentation order within session

Day of the Week

M = Monday
Tu = Tuesday
W = Wednesday
Th =Thursday

Series

1 =1st of series
2=2nd of series

Session Designation

A=1st Parallel Session
B=2nd Parallel Session
The first letter of the code designates the meeting. The second element denotes the day of the week . The third element indicates the session series in that day (for instance, 1 would denote the first sessions in that day). Each day begins with the letter A in the fourth element and continues alphabetically through the parallel session. The lettering then restarts with each new series. The number on the end of the code (separated from the session code with a period) signals the position of the talk within the session (first, second, third, etc.). For example, a presentation coded M2B.4 indicates that this paper is being presented on Monday (M) in the second series of sessions (2), and is the second parallel session (B) in that series and the fourth paper (4) presented in that session.
